

NOTICE:

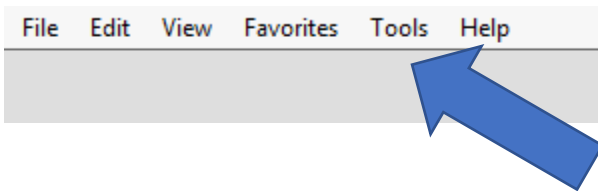

A product enhancement has been installed for our Internet Banking product. For customers using Internet Explorer, the steps listed below will need to be taken to avoid connectivity issues.

For additional assistance please contact one of our friendly associates. We will gladly answer any questions you might have about our electronic banking products, the safety of your personal information and protecting your financial identity. Together, with our present safeguards, continuing diligence and your awareness, we can meet the challenge of keeping your financial identity private and secure.

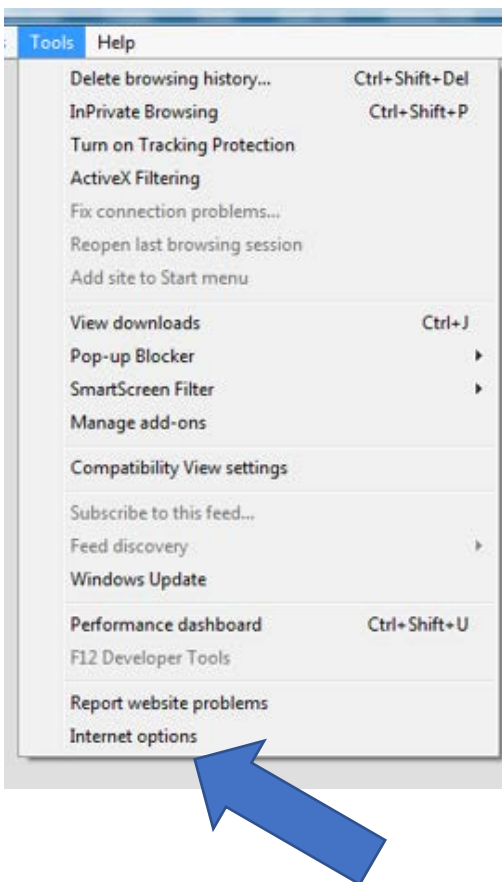

The approved Browsers for Internet Banking are: Firefox, Safari, Google Chrome and Internet Explorer.

TO CLEAR CACHE SETTINGS:

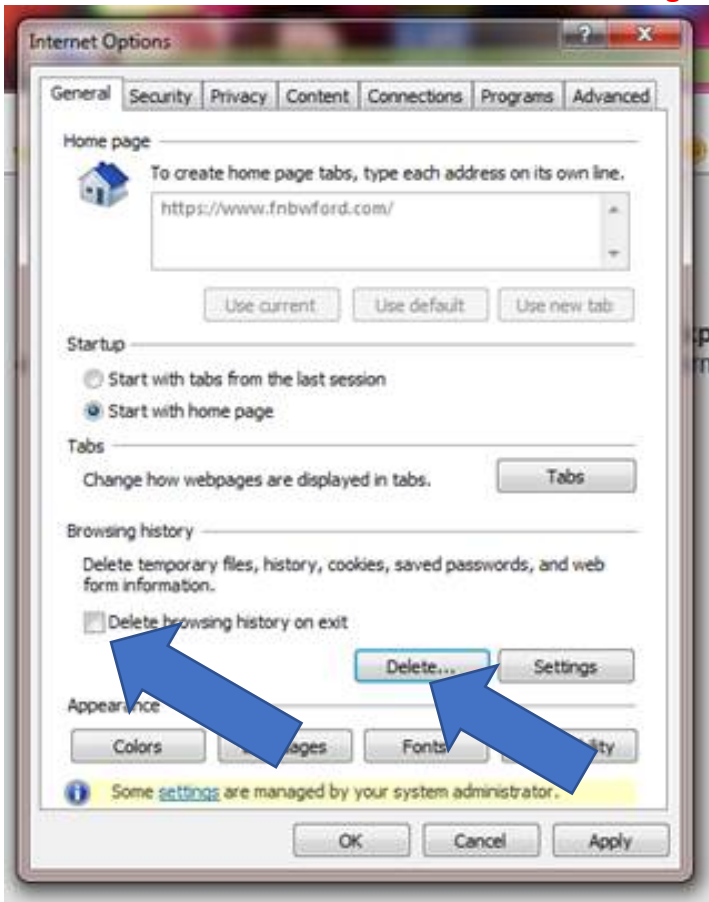

From the Top Navigation Bar select “Tools”

Select **“Internet Options”**

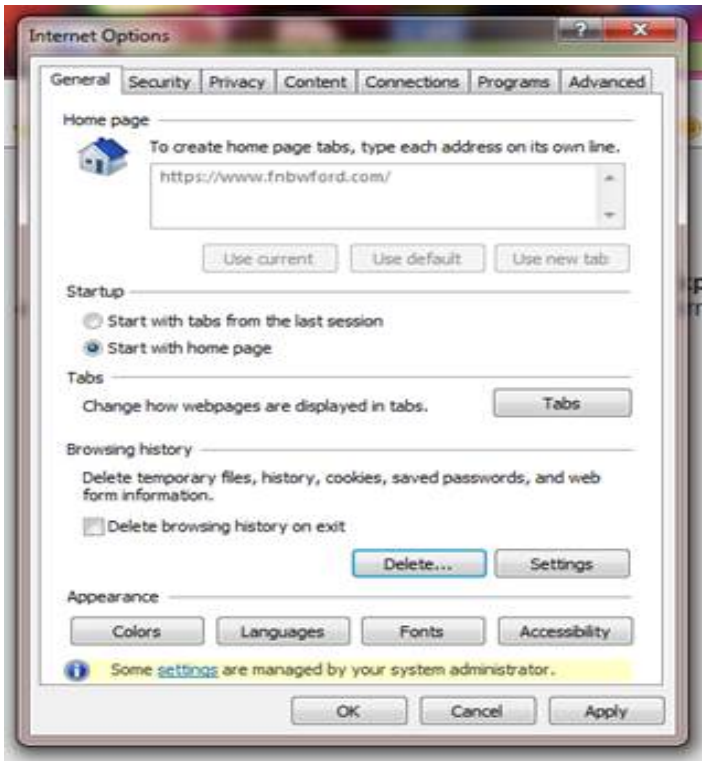

Place a check mark in the box for “Delete Browsing History on exit” and select click on the “Delete” option

The Delete Browsing History Screen will display
Remove the check mark from the “Preserve Favorites website data”
Verify there is a check mark in all of the other selections and Click on “Delete”

Click on the "OK" Button

Close the browser and reopen it.
